

# ITS NOT JUST THE FEE IT'S THE VALUE WHEN CHOOSING YOUR DRAFTS PERSON

**EXTENSIVE EXPERIENCE** With 20 years of experience, Glenn and his team specialize in extensions and renovations, navigating the complexities of existing conditions and council policies for a successful outcome.

**INDEPENDENCE FOR MULTIPLE QUOTES** Having your own plans and permits allows you to get quotes from various builders, providing flexibility and value.

**BUDGET ALIGNMENT** Metro Building Designers work closely with you to align the cost of construction with your budget, preventing surprises.

**LOCAL EXPERTISE** It's essential to use a building designer and a builder who understand the local council requirements. We can connect you with several builders who have this knowledge and expertise.

**HOLISTIC DESIGN APPROACH** Avoid the pitfall of hiring an architect for design and then seeking a cheap drafts person. We provide comprehensive design services, ensuring that well-thought-out designs actually get built.

**FULL-TIME COMMITMENT** Metro Building Designers prioritize your project by working full-time, not just as a side hustle, which means better attention to detail, communication, and project management.

**EFFICIENT FLOOR PLANS** Their design expertise ensures that your project features a fully customized and efficient floor plan, minimizing construction costs and maximizing space utilization.

**DETAILED DRAWINGS** Metro Building Designers provide detailed drawings, leaving no room for mistakes during the construction phase, ultimately saving you time, money, and potential headaches.

*Metro Building Designers are local experienced professionals who add value to your project from start to finish, ensuring it's not only successful but also very cost-effective.*
